## APPLICATION & ANALYSIS INFORMATION

This software has been scanned and vulnerabilities checked for based on the following standards: OWASP, CWE, SANS 25, PCI-DSS, HIPAA, WASC, MISRA-C, BIZEC, ISO 25000, ISO 9126, CERT-C, CERT-J.

Kiuwan has analyzed for you a set of source files. In order to put this analysis and your results in context, here are some statistics:

### Notes:

- unparsed files are the source code files of your application that kiuwan engine couldn't read during the analysis process.

### Analysis Info

label	velpay-front-assistant-11-septiembre-2025
date	2025/09/11 11:30
ordered by	Roberto Estrada Orozco
encoding	UTF-8
analyzed path	-
languages found	html, javascript
analyzed files	474
unparsed files	6
unrecognized files	-

### Application Info

name	velpay-front-assistant
Bussiness value	critical
Times analyzed	138

### Model Info

model name	CQM
model version	q13496
engine version	master.p695.q13496.a1914.i666
active rules	88
active metrics	0

## EXECUTIVE SUMMARY

Security Rating indicates the level of security of your application or file.

It is not an average, but rather the most demanding of values, since if any part of your application is found to be vulnerable, the whole application is thus at risk.

E.g: if one of the files is rated with 1 star, your whole application will receive 1 star as well.

Security Rating

Vulnerabilities

0 HIGH	0 VERY HIGH
0 LOW	0 NORMAL
